Subject: RE: Contact List and Access Agreement Spreadsheets

Hi!

Can we use the I:Drive as our secondary source of files for sharing? I:\Restricted Share\Upper Animas

Both of these documents are on the I: Drive. We can utilize the internal drive until we get sharepoint up and running.

It may be awhile before I we can get full utilization of Sharepoint. Because of the complexity of users and privileges, I would like to talk to someone about design of the page before we fill the page up with documents. I haven't heard back from Danny or Rob Barker.

Liz

Subject: Contact List and Access Agreement Spreadsheets

OK - Since Liz "locked" Cynthia and I out of SharePoint, I made changes to both of these spreadsheets this afternoon when I was going thru my paper file for access agreements from last season. So when things become accessible again on SharePoint, I'll load up these two spreadsheets again.
